Information

- 1 not all tests are accredited – for information please consult our home page (<https://virovet-diagnostik.de/>)
- 2 virus detection can comprise isolation, PCR (genome detection), antigen detection and / or electron microscopy. The laboratory decides (if necessary) which method is suitable. **Please indicate if a certain method is required.**
- 3 for production of autovaccine please use special form (prescription).

Please note that your personal data will be used and recorded for processing the submission and accounting. Further information on our data protection rule can be found here: [Data Protection Directive \(virovet-diagnostik.de\)](#)
